THE STOCK INTEREST.

The fallure of a scheme to "retonize" a large range in British Commbia with cattle from On-gon and Washington tarrilory is reported by the Walla Walla Colon. It appears that a St. the Walla Walla Union. It appears that a St. Louis company engaged a large tract at a yearly rental of something like four cents par acre, and collected a berd of some thousands of cattle intended to be matured upon it. On the route north through Western Monthua feed was short and water scarce, and the cattle literally starved to death. The drevere, who suffered severely from want of water, made their way back to the Northern Pacific, and man up the yentere. Northern Pacific, and gave up the venture, quiliffy" he erj. through which the St. Louis company is out a democratic master.

large sum of mency.

This report, begudes its inferest as a matter of news, has some value in calling to public unice. the changed conditions of the stock business in this country. Formerly, cuttle bred in Oregon and Washington, matured in their native ranges, and when reads for bed were driven across the country to Laramie. But with the extension of settlements the route to haramie has practically been closed. There is, indeed, room enough to drive over, but the grass, abundant a few years ago all along the route, is eaten and trainped out, and there is no feel excepting such as may a be bought from farmers. This is out of the question, of course. It is found cheaper and better to sand stock out by rail, and this bisiness has become very large. Its principal depot in Exstern oregon is Outario, where fourteen bundred care were loaded with cattle last tear. the changed conditions of the stock business in

But the range is gotting shorter in Rustern Oregon, while practically there is none at all in Western Oregon, and it is now found less to profitable to maintain cattle to maturity than to sell at one or two-years-old. Buyers rauge the country every summer, going as far south as largue river, for young stock which is shipped through to Montana and left for a year or two And extensive. The Montana cattle nen as a rule do not breed, but expect to replenish their herds by purchase in Oregon. Our people, on the other hand, have gone into breeding, but do not mature the stock. The cattle interest has thue been divided. In Oregon it is the retail business of breeding: in Montana it is the

wholesale business of maturing and marketing by the thousand head. The arrangement is profitable all around, and will continue so long as the ranges in Montana hold out.

wholesale business of maturing and markstug by the thousand head. The arrangement is profitable all around, and will continue so long as the ranges in Dregon diminish party greater the cattle interest steadily grows in vivue and value. There are fewer big berlet than Jormerly, but, interest, small lots, which are better cared for than wers the big berlet. A had whiter now does not mean general disaster to stock. It is found that a farmer who make cattle raising an adjunct of a guancial farming business will feed more stock if on the saction of this mean formerly had been as a stock of the feed more stock if on the saction of the summation will be such as a stock of the saction of the summation will be such as a stock of the saction of the summation will be such as a stock of the saction of the saction of the summation of the saction o service, contrary to the usage which leaves an engineer officer three years or longer at a sta-

eager for the advancement of the work at Cascades the change seemed something note than a personal matter, since it is the one iom of the government to require from each of-ficer an elaborate statement of his pians of operation before giving into his hands the money appropriated by congress. It was feared that under a new administration there would be a delay of some months white new plans were being made and before they could be approved at Washington. The plans of Maj. Jones hal-aiready been submitted, and the feeling was and nireacy been sufmitted, and the feeling was and is general that he should be permitted to carry them out. Fearing delay, the board of trade at a special meeting called for the express purpose of considering this matter, sent a petition to the government praying that Maj. Jones he to the government projing that Maj. Jones he nilowed to remain in charge of the work. In reply, a dispatch was received from tien, John C. Parke, acting third of engineers (the rost of third being vacant at this time), shallog that the plane submitted by Maj Jones had been apgroved, and that they would be carried and Capt. Powell, 211 Instinating that there would

board of trade and the public are concerned but it is quite indunit that some interest should be felt in a processing so unusual and which ac-tects an officer who is very highly esteamed. Major Jones has not been ordered to another sar vice, and it seems to be the purpose of the aut ing third of engineers to leave him here and to limit his duty and responsibility—in other words, to put upon him a pointed slight. We bave an infiniation from a gentleman claiming to know, that Gen. Parke is the bitter personal stemmy of Maj. Jones, and that he has made use of his brief authority to indict upon him a public runb. If this be true, and it looks as if it were, the action of Gen. Parke is most contemptible, and furnishes one of the best reasons why he should not be given the appointment as chief of angineers which he is seeking. Maj. Jones has demonstrated in his service here his somes has demonstrated in his service here his high capacity as in engineer and his portect in-tegrity as a man. At San Francisco, where he served before coming here, he was highly val-ned. The effort made by poolic bodies and by the officials of the city and state to keep him there was the highest compliment that could be paid to an officer in his position. One thing is quite certain, namely, that efforts to injure Maj. will fail otterly in this and other communities

engreblets, ending with sentencing them to be tion of Neebe, who wis sent to the state's prison for fifteen years.

Owing to the resignation of Mr. D. W. Taylor, vacancy exists in the Mu'tnomah county legislative delegation and it will have to be filled by z special election, which the governor of the state is authorized by law to call. Gov. Moody wishes to choose a time convenient for the voters

of the county, and has it in mind to name a day of election in the middle or latter part of next month. The call must be issued twenty days before the day appointed for election and it will be time enough to name candidates after it is out. The bosses will have matters "fixed," no doubt, so it will not be necessary for the people to give themselves much trouble in the

The editor of the Staunton (Val) Post, a colored man, says that the negroes were never so well off as under the present democratic rule of state and nation, and he and his friends are going for the party which gives them peace and tranquility. It seems to have been a great mistake that the republican party was allowed during so many years to make the negro un-happy, or to interfere with the "peace and tranquility" he er j y d as a slave, under his

Austin F. Pike, United States senator from New Rampshire, as was appronned in our usue of Saturday last, was born (let@er 15, 1819; received an anademic education and has been in the active practice of law since 1845. He was a me active practice of law since 1815. He was a representative in the lower house of congress from December, 1875, to Murch, 1875; he was elected to the United State sounds to succeed R. H. Kollina and book his seat December 3, 1883. His term of service would have x, ired March

A dispatch from Washington to THE OREGO-SIAN says that Senator Bolph has secured from the secretary of wir an order for resumption of work upon the locks at the Cascades. By direc-tion of the secretary the work will be prosecuted upon the plans proposed by Capt. P. well. Major Jones is to be transferred to duty else-

Sales, entries and selections of public lands throughout the United States for the fiscal year ended June 30 last reached a total of 20 991.957 acres, and of Indian lands 1.132,596 scree more The increase over the preceding year

The governor of Montana, in his annual report, just forwarded to the secretary of the in-terior, says the population of that territory is now 120,000. The population by the course of 1880 was 39,159.

Another change is reported for the Yakima Indian agency. Thomas Priesdly, of Wisconsin, has been appointen agent.

THE EAST PORTLAND WATER COMPANY.

Jurpaces, instend of \$3373 cc, as stated in hader port, port,
From the above it will appear that the committee did not obtain their figures from the records, but from a source which to them may have seemed and should have been reliable, and was furnished them for the purpose, as previously stated, of producing the citizens of East Portland and vicinity against the East Portland Water company. Corporations, especially gas and water companies, receive sufficient censure from the public, and there is an need of increasing it by interpresentations.

WHATCOM NOTES.

WHATCOM, W. T., Oct. s. Thereas Liewellyn, a resident of Seahone, was tentally killed by the fad of a trop on the ad There are two republican tickets for county officers in the field in Whatcom county, so that the concernite party will likely elect most of their constitutions.

comocratic party will likely elect most of their conditates.

The apper and part fruit crop never was so from the special party at a considerable export trade in updies from the northern part of the Sound is done with Britsh Columbia.

It is currently reported here this a mine of the most infirmation-ental to the best Pennisylamia coal—has been discovered on the North fork of the Modakack river fo this county. The vein is said to be theirly feet in thickness. However, as these fluids, are made so often on Puget sound and in the neighborhood of projected nationals and entes, the nation cosmological attention.

Iron is now being hald on the national under conjunction by allethesis and Pennisylvama capitalities in the mortiliern part of skault county. A large cree of mer has been all work desping and eradical of the rooft on past three months. The road is a cheroad the past three months, and will extendively a cheroad the past three months and will extend white the past in the cool of and upon takes Saunish and Whitenan.

THAT HACKING COUCH can be so notically

A Tursers between here and Astoria, who is always neath in his dress and personal appearance, keeps in his groen abourd the bost a bettle of hair dressing. Lately the contents disappeared very rapidly, and the purser suspected one of the drue cabin boys of git saing his hair without expense. The lotton was of dark pinkish him so the purser fixed up a both of water and carmine like to look like the lie and uvails dresuits. It disappeared gradually a little going every day or two. Then the purser watched the heads of the cabin boys. Not many days went by dill he discovered a carmined weap, and as the piliterer had blonde hair the coloring showed all too pilating not only where the hair gree but on bis neck and back of his cuts. The purser's revenge was complete and the coloring showed all two pilating hair and the crime hair for the crime.

Too Rish Parantazer - Jesterday's train from Tacoma brought two passengers who were taken on stretchors to St. Vincent's heistal. One was Mrs. Alexander Whiteho at elderly left of this adelphia reterming from Alaska where she has been on a visit of pleasure a companied by he soo in law her to pleasure a companied by he soo in law her to pleasure a companied by he soo in law her to pleasure a companied by he made to to the Ancong disaster Mrs. Whilliain took of it which ret from the in mount and this resulted in paralysis of the lift ode. After standing the begin has bit if he as attended by he keen that he is not the and made as comfortable as notable. If red dition he not hopeful but she will start it homeon this afformoon's train. The other publishment was a man unused Miller from Freepoet W. I suffering from hemorrhase which thread it disting his life his land a adhering on his leg and in cutting his life his land a patherna of his lag and in cutting his life his land a patherna of his lag and in cutting his life his land a patherna of his lag and in cutting his life his look of the patherna of the which was evidently that I capacite and will be done to the history of the which was evidently that I capacite and will be done to the history of the land history of t TOLERD IS BEER —The last car up on the dealy near the corner of Fifth. All at cice the car began themping and bumping as if running showlder and the passonger's were unpleasabily shaken. The car was stopped and to vreryone surprise the wheals were on the rack and no rocks were visible under the wheals. Investigation showed that a beer keg had got between the foot of the car and the roadhed—probably placed on the track by a wag. This is not the first butter, where locomotion has been impeded by the use of malt liquors.

A Sydney, Australia circular of September + re dull business. The circular does not quote wheat but says. During the past forthight the Rose Welt, Borrowdale and Fiery Cross arrived with wheat from San Francisso. The former vessel & cargo was immediately placed on the market with out eliciting satisfactory offers and we think it is the owners intention to store. The shipment per Fiery Cross, having we believe been imported on account of sevegral millers, will in all probability go direct into consumption. The market generally is semewhat weak and this feeling is to some extent occasioned by the fact that several car, oes which were purchased for the Meibourno market are likely to be resalted in Sydney in consequence.

which were purchased for the Melbourno market are likely to be resilized in Sydney in consequence of the V ctorian government having refused to permit gristing of imported wheat in bond PROPILCE RECEIPTN--Past 24 hours 10.125 cits whent, 600 bbls flour 641 cits cats 100 cits mill stain 17 sks potatones, 17 680 lbs wool 20 lbs hides 45,910 lbs hops, 40 cs eggs 120 lbs for it 10 pkgs drien do 6 cs butter 65 sheep. Also from the ensit critical to 100 sks flaxseed 100 lbs hides.
FRICTURIT The Abercame has a prior citarter foreign account. The kilty arrived open as also the hitthades swelling the open list to 11,200 tons all fibth. The en route list is down to 22 27 tons of the former the rich need to said. Should wheat

way some business in chartering would for but just now sellers are holding back and shipper

day isle options marking the greatest loss, Janu BLY Chilego receding I at Abroad less money would have to be taken to effect a sale and supweighthave to be taken to rifect a sale and sup-pries war almost all positions are plentiful. San Friffelisto is fairly ilrm for spot and weaker for futures. I sporters there claim their wants have been largely provided for by buy ar year purch as ers some time ago. Our market rules quiet with free receipts from both sections I title or no sal-ley is reported selling and trade in Walls Walls, is not large. For the latter grade \$1 is is probably a full quotation but a shade in reds not impossible, Valley may be proted \$1 \(\mathscr{L}\)2, with sellers askin-mere.

FIOL: Receipts free with more Walls Walls quiet and values irregular

BE CHARLES

TO THE EDITOR OF THE ORROWNAN

1 observe that Mr Allen Weir of the Port
Townsend Argus with a swell of bombast and a
contraction of argument has attempted to reply to
my article recently published in your paper. By
way of a passing notice I merely state that Mr
Weir's communication is hardly worth nylcing
He clearly ignores the reasons I gave in my former
article that the 'o-called' law and order question'
is not a primary issue in this fail a campaign. The
very fact that those who promoted and endorsed
the Tacoma and Scattle riots are now divided in
their choice for delegate to congress forbids that
the issue that so intendifies the virtinous wrath of
Mr Weir should be the chief topic of political dis
constants. Mr Weir should be the chief topic of political discussion.

But there is this much about those riots that makes their occurrence remembered and notice able a low class of ill bred politicians that I set winter championed the most extreme measures of chinese continuous moderner to pose as the chinese continuous moderner to pose as the chinese continuous moderner to prove a state of the continuous moderner. To properly classically the content pittle cowardice of this class there is to great a dearth of epithesis in the copious I nglish top, as The democratic party of the territory has it endorsed from the content party of the territory has it endorsed from the content party of the territory has it endorsed from the content party of the endorse at the driving difference of the content of the c SHIPPING INTELLIGENCE. bieben Sydney
